RE: EXTENSION OF FUNDING FOR BOLIDEN INTERTRADE
DATE: 12/20/93

Please be advised that we are requesting an increase in funding for Boliden Intertrade to cover expenses incurred in 1993. These expenditures were a result of higher than average rainfall and a new ruling from Federal EPA in June.

Drinking water is tested for the presence of particulate matter known as turbidity. The new Surface Water Treatment Rule, promulgated June 30, 1993, requires that the new level for turbidity be 0.50 NTU as compared to the old standard of 1.0 NTU. Due to this 50% reduction in allowed levels, coagulant treatment had to be increased to meet the new requirements.

This year also presented with more than anticipated rainfall which causes the incoming particulate matter to increase drastically. The additional Ferric Sulfate was also needed to counteract this situation.

We are anticipating that the requested dollar amount should cover the 1993 expenditures.

Sincerely,

Jean M. Moore
